

Fiero as an Investment ... Jan, 2025: Hagerty Valuation Prices

This article is a pricing guide for Michigan Fiero Club members that is derived from Hagerty Valuations. This group has become the recognized classic car pricing experts for most of the auction shows you see on television.

So which Fiero models by production year are most likely to be good investments? Currently the 1985, 1986, 1987, and 1988 Fiero GT models with manual transmissions and lots of options are the most valued. The 1988 Formula model and the unique 1984 Indy Pace Car are also sought after.

343,766 Fieros were produced in the 5 year model run. **The most sought after models listed above represented only 21% of the total 5 year production volumes** (these volumes include both manual and automatics). Most of these cars are no longer on the road, increasing the value of those remaining. All Fiero models will eventually benefit from classic car valuation pricing. The better the condition, the greater the benefit.

Definitions by Hagerty Valuation Classes:

Generally, **Class 1s** are like showroom new or Concours and **Class 2s** are former Class 1s that show some minor wear and tear due to driving miles. Class 2s have generally been restored visually and mechanically at some point in their history. Every plus 30 year old car needs some restoration due to age: parts rust, paint fades, interiors decline, and rubber parts deteriorate ... all, irrespective of miles driven. **Class 2s** are still capable of winning a local car show but have flaws that the casual observer will miss.

Most of our Club Fiero Cars would be classified as Class 3, Class 4 or somewhere in-between! We, at best, have a handful of Class 2s in our Club.

A **Class 3** car is driven occasionally, has minor visual flaws that a non expert can see and is generally mechanically sound in every area; this includes air conditioning, handling, breaks, cooling, transmission and engine performance. A Class 3 chassis should be sound from a rust stand point. A **Class 4** car needs work visually, mechanically, rust wise or some combination of the three.

See www.hagerty.com/valuationtool ... for full definitions of all four condition classes and prices for all Fiero models and years.

HERE ARE HAGERTY VALUATION TOOL RESULTS:

- VALUE ADJUSTMENTS: -\$1,000 for automatic

The Pace Car Class is much improved in value from last year!

Fiero as an Investment ... Jan, 2025: Hagerty Valuation Prices

As you can see **Fiero GTs and Formula** cars have basically been unchanged in value from mid-year 2024 to 2025. There is one exception to these data and that is the **1984 Fiero Indy Pace Car**

Those of you that were smart enough to invest in an Indy Pace Car have experienced a noticeable increase in value in every class. All of you should feel very smart!

The other good news is that our Fieros are fun to drive, don't really depreciate, and can be inexpensively insured. Generally, parts for most models (the '88 GTs and '88 Formulas being an exception) are readily available at reasonable prices. See our article on owning the 88s in this same web site.

If you are into fixing or restoring your Fiero, the Michigan Fiero Club can help you with information (we have an extensive technical library) and advice on the development, maintenance and enjoyment of this fine classic car. We also have good information on parts sources and useful comfort/drivability modifications.

Many of our members are skilled automotive engineers, development people, and build technicians. We also have a rich events schedule that will put you in touch with a great group of fellow Fiero enthusiasts.

Check out the rest of our Michigan Fiero Club web site and join us; if you don't have a Fiero, we will help you find one.

The Pontiac Fiero is currently a good value in the Classic Car Market; a lot of car for the money ... begin the journey!

All The Best ... *Roger Fagnani*
